

3-JAW PARALLEL GRIPPER

IPC-140-30

3-Jaw Parallel Gripper with Robust Jaw Guides

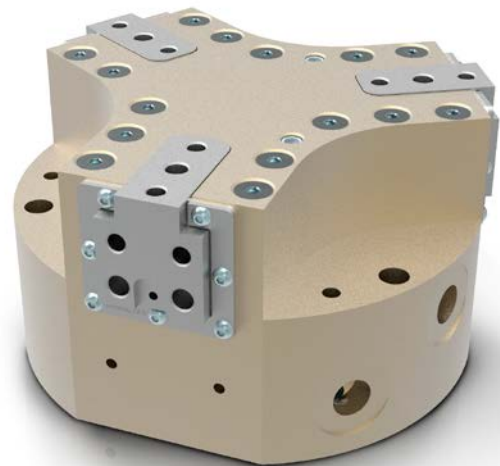

The IPC is an ideal standard solution for a wide variety of applications. Suitable for universal use in nearly all work environments, its low-profile design saves space without interfering contours.

Advantages

- ▶ Low-Profile Design
- ▶ Tubeless compressed air connection at back side of gripper

Applications

- ▶ Machine loading and unloading
- ▶ General handling

Specifications

3-Jaw Parallel Gripper

| | |
|--|---|
| Part-No. | 150000799 |
| Model | IPC-140-30 |
| Gripping Force (p = 6 bar) | 4617 N |
| Recommended Workpiece Weight | 20 kg |
| Stroke (total) | 30 mm |
| Weight | 3,4 kg |
| Cylinder Bore | 110 mm |
| Actuating Time opening at p = 6,0 bar | 0,3 s |
| Actuating Time closing at p = 6,0 bar | 0,3 s |
| Repeatability | 0,03 mm |
| Maximum Finger Length | 200 mm |
| Accessories | Sensor mounting kit including sensors Retrofittable spring load stripper plate |
